

PowerStance®

Powdered Coconut Oil

- Conditioning supplement for all classes of horses
- May assist coat condition, digestive health and stamina
- GMO and sugar free
- Easy to feed, no mess no fuss

What is PowerStance®?

- Powdered Coconut Oil
- A source of Medium Chain Triglycerides (MTCs)
- High energy (29.4MJ/kg or 3.18MCal/lb)
- **PowerStance** contains 70% natural coconut oil
- Supports coat, mane and tail condition
- May support normal muscle glycogen
- MCTs comprise lauric and capric acids
- May assist in supporting appetite and digestive function

Feeding Guidelines

Add to feed, split into two feeds when possible.
Introduce slowly over two weeks

1 scoop = 25g	g/day
Coat conditioner	50
Gut health and appetite	50
Cool energy	100 - 200
Weight gain	50g /100kg body weight

Based on a 500kg horse

305g of **PowerStance** is equivalent in energy to 1 cup of vegetable oil

Ingredients

A proprietary blend [Coconut oil, Purified GMO free corn starch, Hydrated Silica] 25g

Sizes Available

150g / 1.5kg / 5kg / 10kg

Information on Feeding Oils

Why feed oils?

Oil is 2 to 3 times more energy dense than cereal grains - so you can feed less oil to give the same amount of energy. This is especially useful for those horses that won't eat when in training. Feeding oils may support coat, mane and tails appearance.

Which Oil is Best?

Most commercial equine feeds contain polyunsaturated fats (PUFAs) including soy, corn and ricebran oils. These polyunsaturated fatty acids may cause an Omega 6 and Omega 3 imbalance. These oils are absorbed slowly through the lymphatics. They are prone to rancidity and contain a high level of Omega 6 which may cause inflammation.

Coconut oil is a saturated oil which is absorbed directly into the portal blood and provides a ready source of non glucose energy into the liver. Saturated oils may support greater storage and utilisation of muscle glycogen in horses during exercise.

Nutrient Information

Digestible Energy: 29.4 MJ/kg | 3.18 MCal/lb

Oil: 70% (coconut oil)

Max crude fibre: <0.5%

Fatty acids: Lauric acid (C:12): 44%
Myristic Acid (C:14): 17.5%
Palmitic (C:16): 8%
Oleic (C:18:1): 6%

PowerStance contains no artificial flavours, colours or preservatives.

Testimonial

"My farrier comments on how healthy Jum Jum Spirit's hooves are. I put nothing on these tough, healthy feet – it is purely his healthy diet and exercise. ***Jum Jum Spirit's glossy coat, healthy hooves and soft flowing mane and tail have improved since PowerStance was introduced into his diet.*** Packed with all the goodness of coconut oil **PowerStance** has cleverly been powdered which has made feeding coconut oil a dream."
Virginia Dale, 2016
