

# Turmericle®

## Turmeric and Coconut Oil Powder

- Supports normal inflammation response
- Supports healthy joint function
- May assist skin health
- Contains resveratrol and black pepper

### What is Turmericle?

Turmericle is a unique powdered blend of well researched nutraceutical herbs including two varieties of turmeric, black pepper and resveratrol, which have demonstrated to help with conditions such as joint inflammation and skin conditions. Combined with powdered coconut oil, this easy to feed powder is suitable for horses, cattle and dogs.

### Feeding Guidelines

Turmericle should be introduced gradually into diet over a two week period. Please consult your veterinarian before feeding to a pregnant mare.

**Horses and Livestock:** Based on a 500kg horse

**Morning feed:** 1 x 25g scoop

**Evening feed:** 1 x 25g scoop

A 10kg tub will last a 500kg horse 200 days.  
Safe for horses or ponies with metabolic issues.  
Suitable for competition.

**Dogs:** Add to feed, feed twice daily

Size	Teaspoon p/feed
<5kg	1/4 (1.25g)
5-10kg	1/2 (2.5g)
10-15kg	1 (5g)
15-30kg	1 and 1/2 (7.5g)
>30kg	2 (10g)

A 2kg tub will last a 12kg companion animal 200 days.

## About the Ingredients

### Turmeric

Turmeric contains a blend of two different species of turmeric to optimise the benefits they both offer. One form, *Curcuma longa*, is the traditional type of turmeric commonly used in cooking, foodstuffs, cosmetics and medicine. *Curcuma xanthorrhiza*, has been used as a traditional medicinal plant in some tropical countries such as Indonesia and Malaysia. It contains the xanthorrhizal oil which may offer additional benefits.

### PowerStance® powdered coconut oil

PowerStance is a unique powdered coconut oil, designed to make feeding oil easy. Coconut oil contains high levels of medium chain triglycerides (MCTs) which provide the body with a readily available source of Lauric acid. Lauric acid converts to monolaurin and may provide anti-bacterial, anti-microbial and anti-fungal properties. The benefits of supplementing animals with coconut oil may include improved digestive health, enhanced coat and skin condition. Coconut oil is absorbed directly into the portal blood, and therefore is metabolised faster than other oils.

### Ground Black Pepper

Curcumin is treated as a foreign substance by the liver. It is therefore rapidly metabolised and excreted. Piperine in black pepper blocks curcumin excretion by the liver and increases curcumin bioavailability. Piperine activity is reduced in sunlight. Turmeric must be stored in a sealed container to maintain the efficacy of the black pepper.

### Resveratrol

Resveratrol is added as an antioxidant that may help the body efficiently detoxify free radicals and may assist in decreasing inflammation.

### Suggested Product Combinations

**VitaStance** - High quality vitamin, mineral and amino acid mix to maintain general health of horses of all ages.

**ProFlex** - Supports the skeletal, endocrine, nervous and circulatory systems. Provides the horse with precursors for the natural synthesis of ingredients, such as collagen, to support normal joint and ligament function.

## Testimonial

"I started my gelding on Turmeric 3 weeks ago.. I noticed a change in him after about 10 days. He seemed very focused and his coat was improved! But the proof was over the weekend! We travelled 5 hours Friday to compete in a very competitive barrel racing series over 3 days! We managed to win all 3 rounds and the whole series by quite a margin!

**He stayed strong, happy and with no sign of muscle soreness or fatigue during the whole competition!**

This gelding has suffered terribly with a skin condition and I struggle to keep condition on him! Thank you for a great product!!! I am a big fan!"
