

Placid Rein®

Nervous and Anxious Horses

- For behaviour problem management
- Helps maintain calmness
- Helps manage normal stress
- May improve focus and attitude

What is Placid Rein®?

Placid Rein is a unique powdered formula designed to support normal stress in horses and to help maintain a consistent attitude to work whether at home or away.

Placid Rein can be administered daily and long term for highly strung or nervous horses. Alternatively, it may be used to help pre-event nerves.

Symptoms of nervous horses

- Excessive sweating, even in moderate climates
- Loss of condition (especially when traveling)
- Refusal to eat or drink in different environments
- Excitable and/or difficult to manage

Suggested Product Combinations

Clean Culture - To support a normal digestive system and may improve nutrient digestion.

ProFlex - Supports cartilage, ligament and tendon function. Supports hoof growth and joint mobility.

Feeding Guidelines

Add to feed twice daily. Can be used as a daily supplement or five days prior to an event

Morning feed: 1 x 35g scoop

Evening feed: 1 x 35g scoop

Based on a 500kg horse

A 10kg Placid Rein will last a 500kg horse 143 days.

Safe for horses or ponies with metabolic issues.

Suitable for competition.

About the ingredients

Placid Rein contains high levels of **B vitamins** which support nervous system function.

Magnesium is included in several forms as it has a role in many processes in the body. Magnesium deficiency can cause nervous or anxious behaviour.

Seaweed derived calcium is a rich source of magnesium and calcium.

Tyrosine is used in humans to treat anxiety.

Baikal skull cap is a herb that has been used for centuries in Chinese medicine as a natural calmer.

Diamond V Yeast XPC (yeast prebiotic) is included in **Placid Rein** as there is a strong link between stress and digestive upset. This prebiotic is thought to positively influence the growth of good bacteria and eradicate bad gut bacteria to support digestive and immune function.

Glutamic acid is included for its role in brain metabolism.

Testimonial

“Placid Rein would have to be one of the best products I have used on the market for uptight, highly strung and nervous horses.”

With having a team of show horses in the past I have tried and tested numerous products to aid in calming these types of animals. Nothing has come close to the response Placid Rein has. My team of horses successfully competed at the recent Sydney Royal show performing at their best handling the electric atmosphere with ease, feeling very relaxed but with enough ‘energy’ to cope with the week long event. For my mares that have a lot of blood it keeps their level of excitement under wraps, my thoroughbred with a stable trainable mind and me as a rider happy and at ease that my horses are in the correct mind set to perform at their best.”
