

# Placid Rein PLUS®

## Nervous and Anxious Horses

- For behaviour problem management
- Helps maintain calmness
- May improve focus and attitude
- With resveratrol and withania

### What is Placid Rein PLUS®?

Placid Rein PLUS is a unique powdered formula designed to support normal stress in horses and to help maintain a consistent attitude to work whether at home or away. Unlike Placid Rein, Placid Rein PLUS includes resveratrol, an antioxidant that may help the body detoxify of free radicals, and withania, a herb known for its calming properties.

Placid Rein PLUS can be administered daily and long term for high strung or nervous horses. Alternatively, it may be used to help pre-event nerves.

### Symptoms of nervous horses

- Excessive sweating, even in moderate climates
- Loss of condition (especially when traveling)
- Refusal to eat or drink in different environments
- Excitable and/or difficult to manage

### Suggested Product Combinations

**Clean Culture** - To support a normal digestive system and may improve nutrient digestion.

**OsmoPlex** - Salt and electrolyte replacement

### Feeding Guidelines

Add to feed twice daily. Can be used as a daily supplement or five days prior to an event

**Morning feed:** 1 x 35g scoop

**Evening feed:** 1 x 35g scoop

Based on a 500kg horse

A 20kg Placid Rein PLUS will last a 500kg horse 285 days.

Safe for horses or ponies with metabolic issues.

Suitable for competition.

## About the ingredients

**Resveratrol** has been added as an antioxidant that may help the body efficiently detoxify free radicals and may assist in decreasing inflammation.

**Placid Rein PLUS** contains high levels of **B vitamins** which support nervous system function.

**Magnesium** is included in several forms as it has a role in many processes in the body. Magnesium deficiency can cause nervous or anxious behaviour.

**Withania** also known as ashwagandha, is a valued herb that may have calming, de-stressing and mood lifting properties. It may help with tension and stress during events and training.

**Baikal skull cap** is a herb that has been used for centuries in Chinese medicine as a natural calmer.

**Tyrosine** is used in humans to treat anxiety.

**Diamond V Yeast XPC** (yeast prebiotic) is included in **Placid Rein PLUS** as there is a strong link between stress and digestive upset. This prebiotic is thought to positively influence the growth of good bacteria and eradicate bad gut bacteria to support digestive and immune function.

**Glutamic acid** is included for its role in brain metabolism.

**Seaweed derived calcium** is a rich source of magnesium and calcium.

## Testimonial

"I feed Placid Rein plus a few days before every show.

*I find that it makes him more settled, less anxious and he actually concentrates on the task at hand better.*

Every time I try to go to a show without adding the Placid Rein plus to his feed, I notice a big difference, so now I make sure he always gets it."
