

# Turmericicle®

## Turmeric and Coconut Oil Powder

- Supports normal inflammation response
- Supports healthy joint function
- May assist skin health
- Contains resveratrol and black pepper

### What is Turmericicle?

**Turmericicle** is a unique powdered blend of well researched nutraceutical herbs including two varieties of turmeric, black pepper and resveratrol, which have demonstrated to help with conditions such as joint inflammation and skin conditions. Combined with powdered coconut oil, this easy to feed powder is suitable for horses, cattle and dogs.

### Feeding Guidelines

**Turmericicle** should be introduced gradually into diet over a two week period. Please consult your veterinarian before feeding to a pregnant animal. Not suitable for cats.

**Dogs:** Add to feed, feed twice daily

Size	Morning feed	Night Feed
<5kg	1/4 tsp (1.25g)	1/4 tsp (1.25g)
5-10kg	1/2 tsp (2.5g)	1/2 tsp (2.5g)
10-15kg	1 tsp (5g)	1 tsp (5g)
15-30kg	1 + 1/2 tsp (7.5g)	1 + 1/2 tsp (7.5g)
>30kg	2 tsp (10g)	2 tsp (10g)

**Horses and Livestock:** Based on a 500kg horse

Morning feed: 1 x 25g scoop

Evening feed: 1 x 25g scoop

### Ingredients

A proprietary blend [Curcuma Longa (Alleppey), Curcuma Xanthorrhiza, Powdered Coconut Oil (PowerStance), Ground black pepper, Resveratrol from Japanese Knotweed] 25g

### Sizes Available

200g / 500g / 2kg / 6kg / 10kg

## About the Ingredients

### Turmeric

**Turmericle** contains a blend of two different species of **turmeric** to optimise the benefits they both offer. One form, *Curcuma longa*, is the traditional type of **turmeric** commonly used in cooking, foodstuffs, cosmetics and medicine. *Curcuma xanthorrhiza*, has been used as a traditional medicinal plant in some tropical countries such as Indonesia and Malaysia. It contains the xanthorrhizal oil which may offer additional benefits.

### PowerStance® powdered coconut oil

**PowerStance** is a unique powdered coconut oil, designed to make feeding oil easy. Coconut oil contains high levels of medium chain triglycerides (MCTs) which provide the body with a readily available source of Lauric acid. Lauric acid converts to monolaurin and may provide anti-bacterial, anti-microbial and anti-fungal properties. The benefits of supplementing animals with coconut oil may

include improved digestive health, enhanced coat and skin condition. Coconut oil is absorbed directly into the portal blood, and therefore is metabolised faster than other oils.

### Ground Black Pepper

Curcumin is treated as a foreign substance by the liver. It is therefore rapidly metabolised and excreted. Piperine in **black pepper** blocks curcumin excretion by the liver and increases curcumin bioavailability. Piperine activity is reduced in sunlight. **Turmericle** must be stored in a sealed container to maintain the efficacy of the **black pepper**.

### Resveratrol

**Resveratrol** is added as an antioxidant that may help the body efficiently detoxify free radicals and may assist in decreasing inflammation. This **resveratrol** is derived from Japanese knotweed.

## Testimonial

"Opy is my seven year old Spoodle that I started on Turmericle about six months ago to be proactive in maintaining her joint health and skin condition. **The immediate benefits included much improved skin condition, almost completely eliminating her scratching, plus the colour of the skin returned to a much healthier pink colour.** Her coat condition is excellent. There was no problem getting her started on the Turmericle and it is a product that Opy will continue to enjoy daily." Jenny, 2019
