

Turmericle®

Turmeric and Coconut Oil Powder

- Supports normal inflammation response
- Supports healthy joint function
- May assist skin health
- Contains resveratrol and black pepper

What is Turmericle?

Turmericle is a unique powdered blend of well researched nutraceutical herbs including two varieties of turmeric, black pepper and resveratrol, which have demonstrated to help with conditions such as joint inflammation and skin conditions. Combined with powdered coconut oil, this easy to feed powder is suitable for horses, cattle and dogs.

Feeding Guidelines

Turmericle should be introduced gradually into diet over a two week period. Please consult your veterinarian before feeding to a pregnant animal. Not suitable for cats.

Dogs: Add to feed, feed twice daily

Size	Morning feed	Night Feed
<5kg	1/4 tsp (1.25g)	1/4 tsp (1.25g)
5-10kg	1/2 tsp (2.5g)	1/2 tsp (2.5g)
10-15kg	1 tsp (5g)	1 tsp (5g)
15-30kg	1 + 1/2 tsp (7.5g)	1 + 1/2 tsp (7.5g)
>30kg	2 tsp (10g)	2 tsp (10g)

Horses and Livestock: Based on a 500kg horse

Morning feed: 1 x 25g scoop
Evening feed: 1 x 25g scoop

Ingredients

Curcuma Longa (Alleppey),
Curcuma Xanthorrhiza, Powdered
Coconut Oil (PowerStance),
Ground black pepper, Resveratrol

Sizes Available

200g / 500g / 2kg / 6kg / 10kg

About the Ingredients

Turmeric

Turmeric contains a blend of two different species of turmeric to optimise the benefits they both offer. One form, *Curcuma longa*, is the traditional type of turmeric commonly used in cooking, foodstuffs, cosmetics and medicine. *Curcuma xanthorrhiza*, has been used as a traditional medicinal plant in some tropical countries such as Indonesia and Malaysia. It contains the xanthorrhizal oil which may offer additional benefits.

PowerStance® powdered coconut oil

PowerStance is a unique powdered coconut oil, designed to make feeding oil easy. Coconut oil contains high levels of medium chain triglycerides (MCTs) which provide the body with a readily available source of Lauric acid. Lauric acid converts to monolaurin and may provide anti-bacterial, anti-microbial and anti-fungal properties. The benefits of supplementing animals with coconut oil may include improved digestive health, enhanced coat and skin condition. Coconut oil is absorbed directly into the portal blood, and therefore is metabolised faster than other oils.

Ground Black Pepper

Curcumin is treated as a foreign substance by the liver. It is therefore rapidly metabolised and excreted. Piperine in black pepper blocks curcumin excretion by the liver and increases curcumin bioavailability. Piperine activity is reduced in sunlight. Turmeric must be stored in a sealed container to maintain the efficacy of the black pepper.

Resveratrol

Resveratrol is added as an antioxidant that may help the body efficiently detoxify free radicals and may assist in decreasing inflammation.

Suggested Product Combinations

Stay Active 4 Dogs - Supports the skeletal, endocrine, nervous, circulatory and muscular systems. It is suitable for all dogs, and especially suited to active dogs, large dogs or older dogs.

Stay Calm 4 Dogs - May help reduce irritability, may improve memory, and learning abilities, especially during stressful situations such as training or shows.

Testimonial

"I adopted Earl from RSPCA in December 2019; 1 month later he broke his toe which meant restricted movements and weekly bandages. As you could probably understand he didn't want to be left on his own so was following his furents around all the time despite their efforts to get him to stop moving. So he got a limp from over-compensating, even after the bandages came off. Saw this product and heard the benefits of Turmeric and decided to give it a go to see if it'll help Earl's muscles and ligaments post broken toe. ***I have to honestly say that when we increased his activity he no longer limped or became muscle sore and also noticed any skin injuries (I.e scratches) healed really quickly including some irritation between his toes from being bandaged.*** Definitely will continue to give them to him in his breakfast daily!" Sári
